## **TERMS OF REFERENCE**

### **PROJECT TITLED: “TECHNICAL SUPPORT TO THE ASSAM STATE ON TB” PROJECT FUNDED BY GATES FOUNDATION**

A Technical Support Unit (TSU) is being established at Guwahati Medical College & Hospital/State TB Cell to support the State Health Department and National TB Elimination Programme Assam in expediting TB elimination in the state. The TSU will offer technical assistance across six priority areas — active case finding, diagnostic network optimization, differentiated TB care, TB-free Panchayats, communication support and inter-agency collaboration and facilitate improved data-driven planning, monitoring and reporting in coordination with the State Task Force and other stakeholders. The duration of the project is two years and may be extended by another year depending on performance. The duration of the contract offered will be 1 year.

---

### **PUBLIC HEALTH EXPERT (3 POSITIONS):**

Location: Zonal deployment within Assam (as per need)

Remuneration: Rs 1,40,000 per month (Full-time engagement)

Age Limit: Upto 50 years

---

### **Essential Qualification:**

- MBBS with MD (Community Medicine)/MPH/DPH with 10 years of experience in managing Public Health Programmes at State or National Level.

**OR**

- 20 years of experience in the health sector (including **experience in disease surveillance, programme management, or public health research**) and a minimum of **3 years of experience** in managing public health programmes at the state level as State Programme Officer.
  - Prior experience with NTEP or similar large-scale health programmes will be preferred.
-

**Roles and Responsibilities:**

- Support implementation and monitoring of TB-free Panchayat activities and private sector engagement.
- Provide technical inputs for diagnostic network optimization and molecular diagnostic scale-up.
- Promote use of Standards of TB Care in India (SCTI) in the state and assist in the development of additional tools and enablers for effective involvement of all care providers and stakeholders in NTEP at State.
- Analyze surveillance data (Nikshay and other platforms) to identify gaps in service delivery.
- Facilitate training and mentoring of district-level staff for active case finding and differentiated TB care.
- Document best practices and support operational/implementation research activities in collaboration with medical colleges.
- Participate in periodic reviews and prepare analytical summaries for state-level decision-making.
